The Deutsche Akkreditierungsstelle attests with this Accreditation Certificate that the testing laboratory

Technische Universität München, Holzforschung München
Prüf- und Zertifizierungsbereich Brand
Winzererstraße 45, 80797 München

meets the minimum requirements according to DIN EN ISO/IEC 17025:2018 for the conformity assessment listed in the annex to this certificate. This includes additional existing legal and normative requirements, including those in relevant sectoral schemes.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories and confirm generally with the principles of DIN EN ISO 9001.

This accreditation was issued in accordance with Art. 5 Para. 1 Sentence 2 of Regulation (EC) 765/2008, after an accreditation procedure was carried out in compliance with the minimum requirements of DIN EN ISO/IEC 17011 and on the basis of a review and decision of the appointed accreditation committees.

This accreditation certificate only applies in connection with the notices of 16.12.2022 with accreditation number D-PL-14063-04.
It consists of this cover sheet, the reverse side of the cover sheet and the following annex with a total of 4 pages.

Registration number of the accreditation certificate: D-PL-14063-04-00

Berlin, 16.12.2022
Dipl.-Ing. Evelyn Körner
Head of Technical Unit

Translation issued: 16.12.2022

The certificate together with the annex reflects the status as indicated by the date of issue. The current status of any given scope of accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH (www.dakks.de).

This document is a translation. The definitive version is the original German accreditation certificate.

See notes overleaf
The Deutsche Akkreditierungsstelle GmbH (DAkkS) is the entrusted national accreditation body of the Federal Republic of Germany according to § 8 section 1 AkkStelleG in conjunction with § 1 section 1 AkkStelleGBV. DAkkS is designated as the national accreditation authority by Germany according to Art. 4 Para. 4 of Regulation (EC) 765/2008 and clause 4.7 of DIN EN ISO/IEC 17000.

Pursuant to Art. 11 section 2 of Regulation (EC) 765/2008, the accreditation certificate shall be recognised as equivalent by the national authorities within the scope of this Regulation as well as by the WTO member states that have committed themselves in bilateral or multilateral mutual agreements to recognise the certificates of accreditation bodies that are members of ILAC or IAF as equivalent.

DAkkS is a signatory to the multilateral agreements for mutual recognition of the European co-operation for Accreditation (EA), International Accreditation Forum (IAF) and International Laboratory Accreditation Co-operation (ILAC).

The up-to-date state of membership can be retrieved from the following websites:
EA: www.european-accreditation.org
ILAC: www.ilac.org
IAF: www.iaf.nu

This accreditation certificate is the property of the German Accreditation Body.
Deutsche Akkreditierungsstelle

Annex to the Accreditation Certificate D-PL-14063-04-00 according to DIN EN ISO/IEC 17025:2018

Valid from: 16.12.2022
Date of issue: 16.12.2022

Holder of accreditation certificate:
Technische Universität München, Holzforschung München
Prüf- und Zertifizierungsbereich Brand
Winzererstraße 45, 80797 München

The testing laboratory meets the minimal requirements of DIN EN ISO/IEC 17025:2018 and, if applicable, additional legal and normative requirements, including those in relevant sectoral schemes, in order to carry out the conformity assessment activities listed below.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories and confirm generally with the principles of DIN EN ISO 9001.

with the further location:
Karl-Benz-Straße 15, 85221 Dachau

Tests in the fields:
Reaction to fire tests and fire resistance test of construction products;

Reaction to fire test and fire resistance test of construction products for which the specification to a reference of a relevant harmonised technical specification is not required (point 3 Annex V, (EU) No. 305/2011)

The testing laboratory is permitted, without being required to inform and obtain prior approval from DAkkS, to use standards or equivalent testing methods listed here with different issue dates. The testing laboratory maintains a current list of all testing methods within the flexible scope of accreditation.

This certificate annex is only valid together with the written accreditation certificate and reflects the status as indicated by the date of issue. The current status of any given scope of accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH at https://www.daikks.de.

Abbreviations used: see last page

Content

1 Reaction to fire tests and fire resistance test of construction products........................................... 2
   1.1 Reaction to fire tests...................................................................................................................... 2
   1.2 Fire resistance tests .......................................................................................................................... 2
   1.3 Reaction to fire tests of building materials and elements................................................................. 2

2 Reaction to fire test and fire resistance test of construction products for which the specification to a reference of a relevant harmonised technical specification is not required (point 3 Annex V, (EU) No. 305/2011).................................................................................................................................... 3
   2.1 Reaction to fire.................................................................................................................................. 3
   2.2 Resistance to fire.............................................................................................................................. 3

The test methods are marked with the following symbols to indicate where the tests were performed:

M = München   D = Dachau

1 Reaction to fire tests and fire resistance test of construction products

1.1 Reaction to fire tests

DIN EN 13820 Heat insulation materials for the building industry – determining the organic constituents of the content M
2003-12

DIN EN 16733 Reaction to fire tests for building products - Determination of a building product's propensity to undergo continuous smouldering M
2016-07

1.2 Fire resistance tests

DIN EN 1363-1 Fire resistance tests - Part 1: General requirements M
2020-05

1.3 Reaction to fire tests of building materials and elements

DIN 4102-1 Reaction to fire of construction products and elements - Part 1: building materials - terms, requirements and tests M
1998-05

DIN 4102-2 Reaction to fire of construction products and elements - Part 2: building elements - terms, requirements and tests M
1977-09
