

Job in Romania!

Farm Manager in Arad

What is your passion?

- Are you enthusiastic about agriculture?
- Do you enjoy working with modern technology and latest industry innovations?
- Are you a team player, able to work under pressure and have an analytical mindset?
- Do you want to take over responsibility in a motivated and international team?
- Are you looking for an exciting experience in a dynamic environment?

Who we are looking for?

We are looking for a Farm Manager to coordinate our operations. Together with a small team you will develop agronomic strategies, organize operational processes and the according digital documentation. You should have prior experiences and a deep knowledge in agriculture as well as in handling modern large-scale technology.

Who we are?

We are an innovative farm, focused on crop-production in the heart of Western Romania (Arad county). You can expect an exciting family business with state-of-the-art technology and a great and highly motivated team.
