Analyst (intern): EU Climate, Energy and Environment Policy
Brussels, Europe

Are you interested in working on international, challenging and dynamic sustainability projects? Do you have knowledge of public policy, including at EU level, and have a passion for sustainability and an analytical mind?

If this sounds like you, or you’re curious to learn more, then this role could be the perfect opportunity. Join Ramboll Management Consulting Belgium as our new Analyst and work with us to close the gap to a sustainable future.

Your new role
As our new Analyst, you will have the opportunity to work with projects related to the green and just transition, while developing your expertise and consulting skills.

Your key responsibilities and tasks will include:
• Working on proposals and projects contributing to EU policy making, across a range of environment, energy and climate policy areas relevant to the EU Green Deal
• Conducting desk research, interviews, surveys, qualitative and quantitative analysis, data processing and modelling
• Support the drafting of reports and presentations for our clients
• Undertaking administrative tasks

Your new team
You will be part of the Climate, Energy and Environment Policy team of Ramboll Management Consulting in Belgium, a dynamic and growing department with professional drive and a strong collaborative spirit. Based in Brussels, our multidisciplinary team is at the forefront of international sustainability efforts. We work primarily for the European Institutions and other public sector actors across various policy domains including Environment, Climate, Energy, Infrastructure, Buildings, Sustainable Cities, and Just Transition/Resilience. The working language of the team is English.

About you
From the moment you start at Ramboll, we will support your personal and professional development so that you can continue to grow with the company. Whilst we look forward to supporting your continued learning and development, for this role we have identified some qualifications, skills, and capabilities that will set you up for success.

These include:
• A master’s degree (completed or in the process of doing so) in a topic related to sustainability.
• A strong commitment and wish to contribute to the green and just transition, with a focus on EU policy.
• Strong analytical and drafting skills, including the ability to process large amounts of data from qualitative and quantitative sources.
• An excellent command of English, both written and oral, and ideally fluent in at least one more EU language.
• Expertise in advanced techniques for analysis of qualitative or quantitative data, including modelling, is seen as an advantage.

Personal qualities that will help you succeed in this role include having an independent, pro-active personality, an interdisciplinary mind-set, good communication skills, a strong team spirit, and a genuine interest and commitment towards sustainability topics. You should also be organised, pay attention to
What we can offer you

- A learning plan and regular follow-up meetings
- Leaders you can count on, guided by our Leadership Principles
- To never be short of inspiration from colleagues, clients, and projects
- The long-term thinking of a foundation-owned company
- A flexible work environment with possibilities of teleworking
- A 1-year internship contract offered through the Belgian CIP (professional induction programme) from 2nd September 2024 to 29th August 2025
- Remuneration of 1,200 EUR net per month (to be reviewed after 6 months based on performance)

Work at the heart of sustainable change

Ramboll is a global architecture, engineering, and consultancy company. We believe that the purpose of sustainable change is to create a thriving world for both nature and people. So, that's where we start – and how we work. At Ramboll, our core strength is our people, and our history is rooted in a clear vision of how a responsible company should act. Being open and curious is a cornerstone of our culture. We embrace an inclusive mindset that looks for fresh, diverse, and innovative perspectives. We respect, embrace, and invite diversity in all forms to actively cultivate an environment where everyone can flourish and realise their full potential.
