Mentor _____	<input type="checkbox"/>	<input type="checkbox"/>

Start date of the doctoral project _____

Date TAC-Meeting _____ Meeting 1 Meeting 2 Meeting ____

Project Report was available a university-public presentation was hold

Following comments can be done in German or English:

1. Comment on student's progress

2. Comment on student's objectives, are they feasible? Have changes been recommended?

3. Comment on student's timeline

4. Comments on student's training objectives

5. Which type of Dissertation is planned?

Monograph

publication-based Dissertation

The regulations of TUM and TUM School of Life Sciences concerning the different Dissertation types were discussed. In case of a publication-based Dissertation, the publications (main authorship "federführend", full paper, generally in English, in an internationally circulated, peer-reviewed medium) are planned as follows:

Can the doctoral candidate be expected to graduate within the original planned time period (e.g. 3 – 4 years) yes no

Progress is satisfactory continue as planned
 continue with recommended changes

Progress is unsatisfactory continue on probation, next TAC in 6 month

Progress is unsatisfactory after probation discontinue doctoral project

Doctoral candidate

First Examiner (Supervisor)

Second Examiner

Mentor
